

# Registration

As in any app at first user has to create an account.

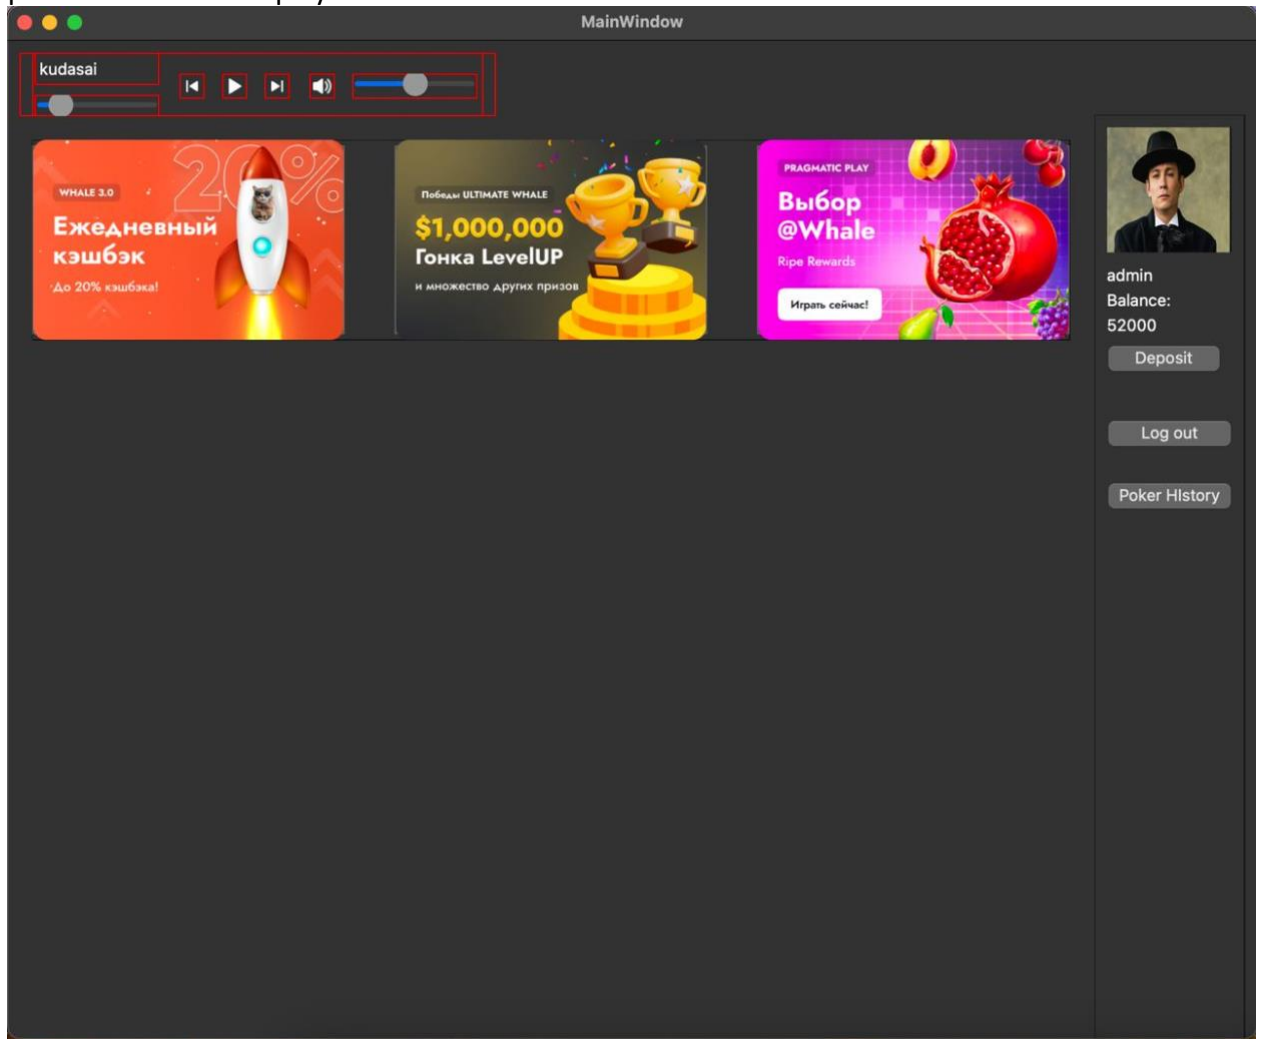

If user already has an account, they simply have to fill in their login and password.

# Main menu

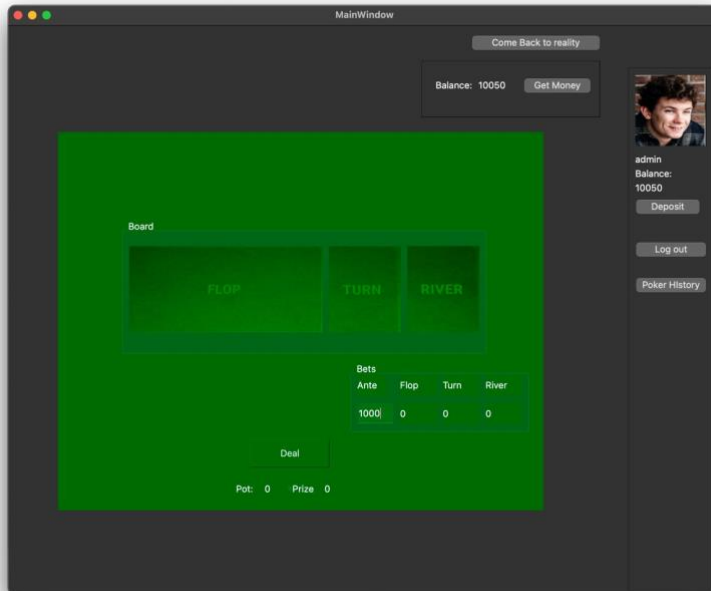

In the top left corner user can control currently played music, by adjusting volume, rewinding and skipping the track. Under the music player user can find a list of our incredibly fascinating games: poker, blackjack and mines. To the right of the game selection name of the account in its balance are displayed. Here there are also buttons that lead user to deposit / withdraw window, where one can manage their funds, log out button, that makes it possible to switch the account, and, finally, poker history button, that opens a window where user can view some data about poker hands that he played.

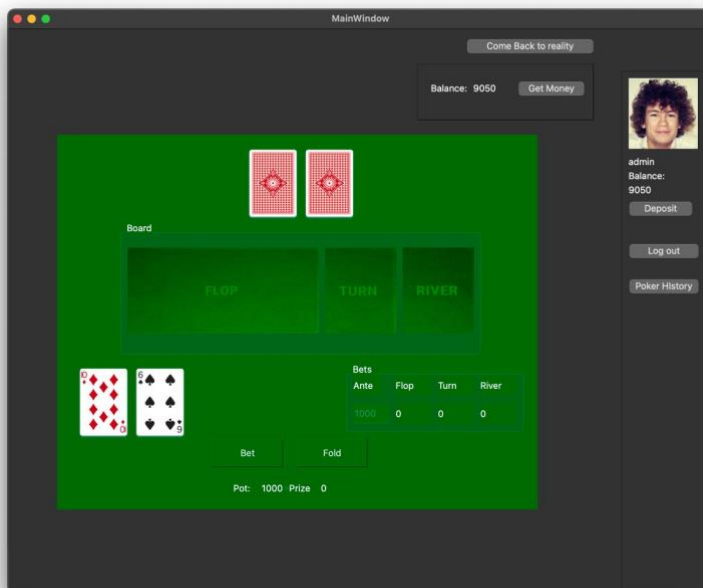

## Games

# Poker

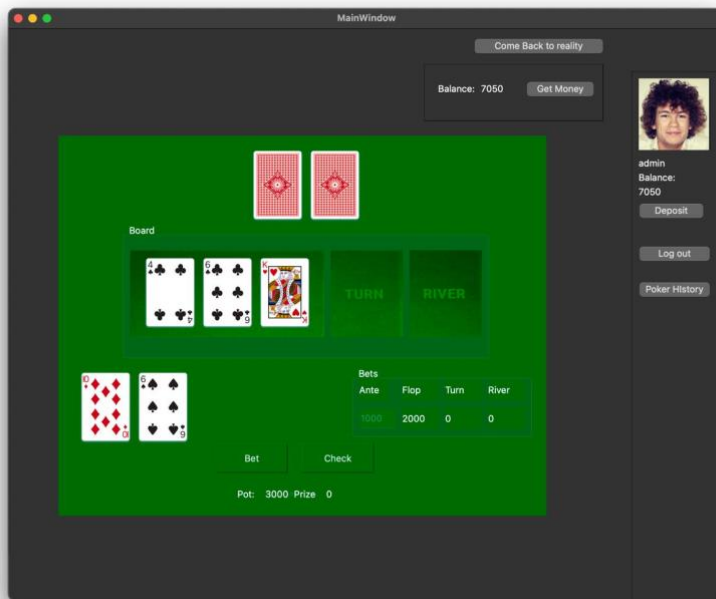

To start the game user has to enter the amount of ante, which will determine the size of all possible future bets. This is done blind.

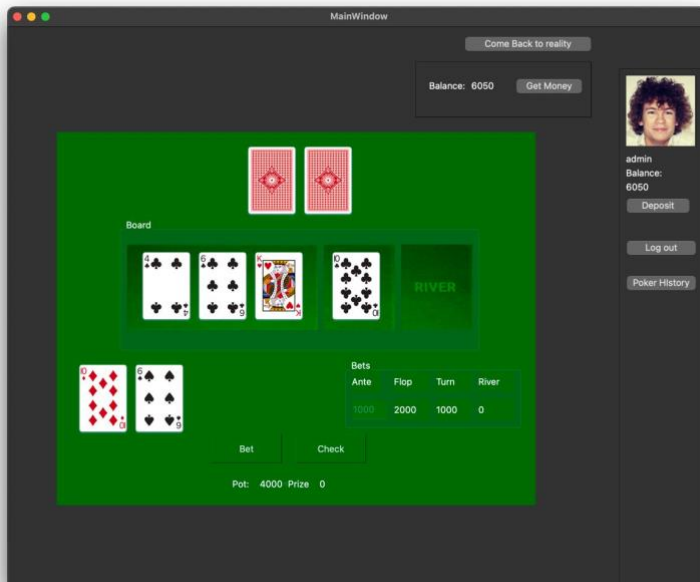

When the bet is entered and deal button is clicked, the cards are dealt. At this moment user decides between folding or continuing by putting in the pot twice bigger bet.

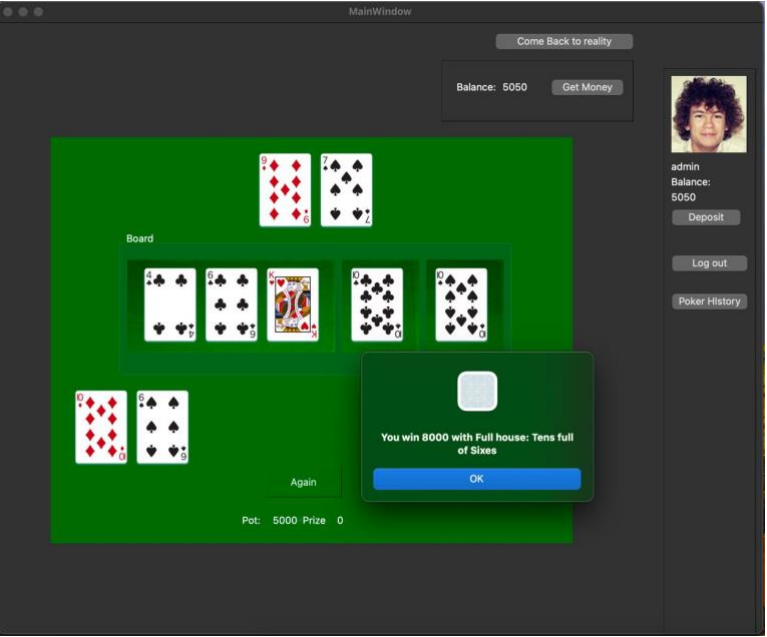

If user decides to continue, flop is revealed and another choice has to be made: to put in another bet of ante size or to check. At this point dealer simply calls or checks.

Another card, another decision, exactly like the last time.

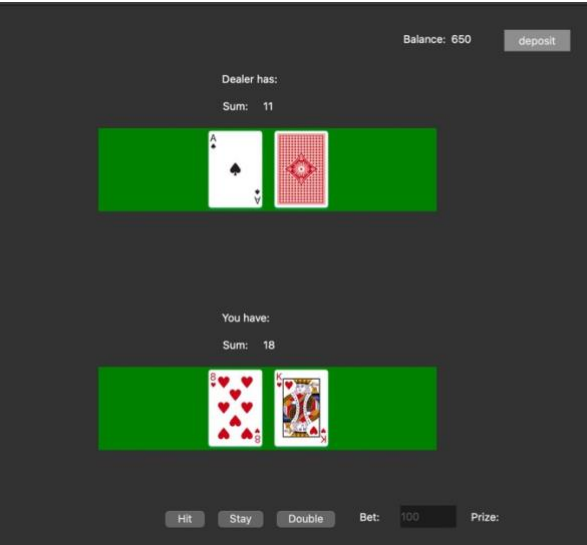

After all five cards are on the table, the winner is determined.

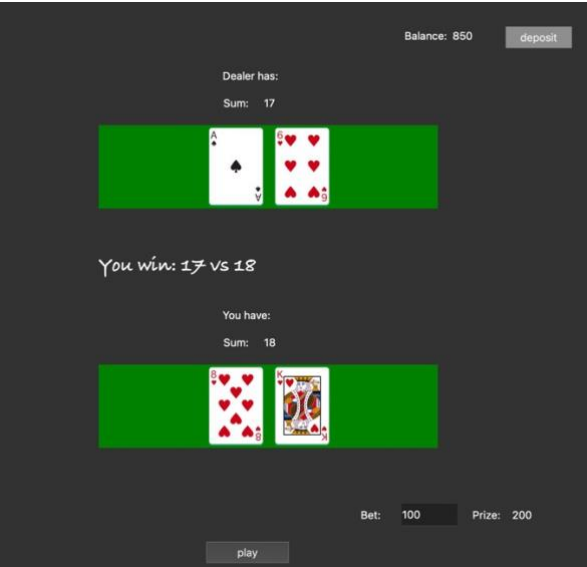

# Blackjack

Regular blackjack game where player has three options: hit, stay and double.

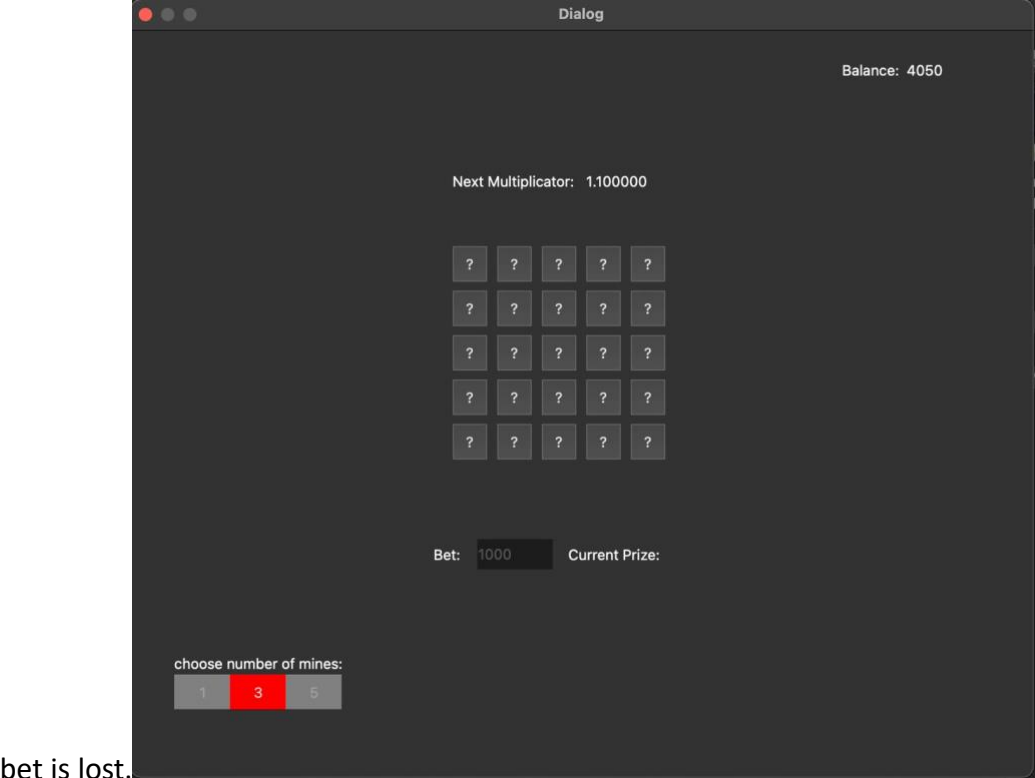

Showdown looks like this:

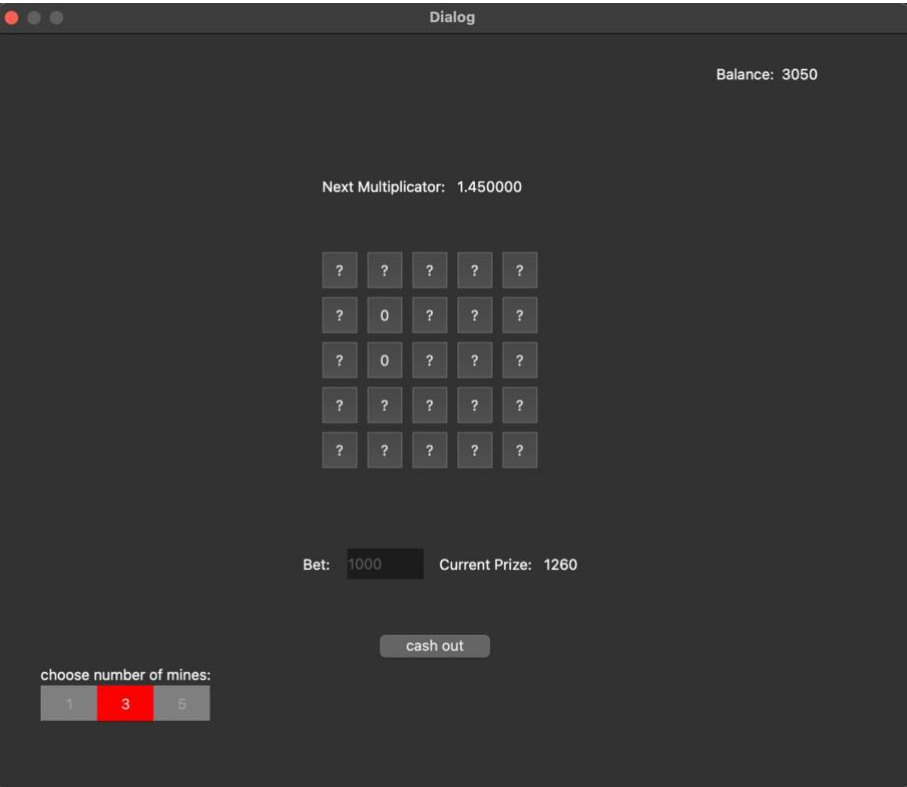

# Mines

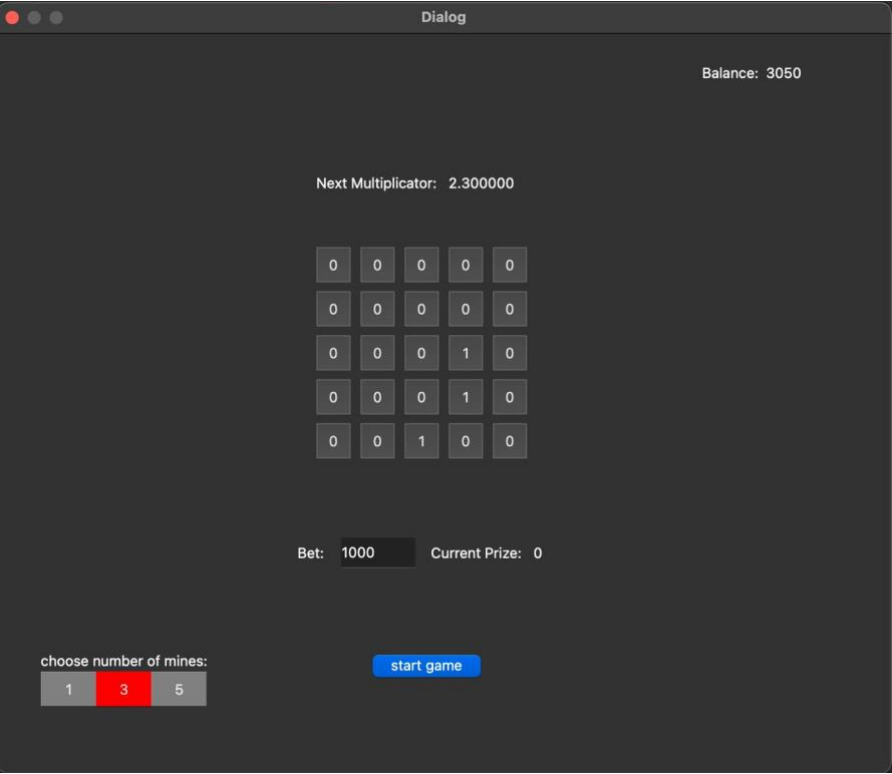

Classical mines game, where player firstly picks the number of mines that will be present in the field. After bet is entered and game is started, user has to guess the cell, where there is no mine, if it is a successful guess, multiplier increases and player can now cash out. Otherwise, the

bet is lost.

When the game is ended, the whole field is revealed to player.

Poker history

There user can look at hands that they played, in the search bar one can enter a particular combination of cards that they played (There letters c, d, h, s stand for the suit: c – clubs, d – diamonds, h – hearts, s – spades).
